Message from CEO

Assalamu Alaikum. Peace Be Upon You.

It gives me great pleasure and an honor to introduce you to BASMAH, Bangladesh American Society of Muslim Aid for Humanity. We are a nonprofit organization based in the USA dedicated to helping people in Bangladesh. The philosophy of BASMAH is to empower communities and individuals by brightening their lives through better opportunities. BASMAH aims to restore hope to those who have been subject to very unfortunate circumstances and are suffering, like the Rohingya Refugees and many underprivileged people in Bangladesh. By helping them we intend to enable them to break out of the cycle of poverty and change their lives for good which will echo for generations to come. We work with dedication to deliver necessary services to the underserved people in a sustainable, ethical, transparent, and effective manner. In addition to that, BASMAH helps the disadvantaged by creating opportunities towards a better future through multiple training, employment, and self-sustainability initiatives. With your generosity we intend to transform many lives for good.

This annual report gives us the opportunity to present what we have been able to achieve together in 2022. We have been providing long-term aid and assistance to Rohingya refugees to alleviate their suffering and also, working hard for the local communities in Bangladesh to achieve our goal. With Allah's blessing and your help, we have been taking on this challenge and we will continue to do so.

I thank you, our hundreds of donors and organizations for your contributions. These contributions have allowed us to stand by the most deserving people and ensure that we provide our beneficiaries the treatment they deserve. We are very dedicated to making the cost for operations as minimal as possible and I am proud to announce that in 2022, we have begun working on the ground directly as a registered foreign NGO after receiving approval from the Government of Bangladesh (Reg No. 3325) which means we do not need to partner anymore. We are privileged to have such wonderful donors and partners on this journey, and we are grateful for your contribution to BASMAH.

Sincerely
Meer Hossain

Background

Back in 2017 when the Rohingya Refugee crisis erupted, over 1 million Refugees fled from their country Myanmar in escape from the terrible genocide and ethnic cleansing that was occurring. These refugees scattered, running wherever they could for asylum and the place where most refugees ended up was Cox Bazaar, Bangladesh. Many camps developed and around 1.3 million refugees are currently residing there. Many organizations from around the world rushed to their aid and that is how BASMAH formed. From there the organization grew to the extent you see now, where we have multiple permanent projects inside the camps and we are providing aid in many fields, changing the lives of many.

04

About Us

BASMAH(Bangladesh American Society of Muslim Aid for Humanity) is 501 (c)(3) registered non profit organization primarily based in Florida, USA mainly working in Bangladesh with the Rohingya Refugees and local communities in need. BASMAH is also registered in Bangladesh as a foreign NGO officially approved by the government. Basmah has also had some projects in the USA.

Vision

Our Vision is to empower people and enable them to help themselves and their communities. Short-term help is great but long-term stability is the goal. Our projects are developed with hope of long-term growth for communities all over the world

Mission

Brighten a Life, Change The World
If you Brighten a Life you Change a World. Then that individual will continue to brighten the lives of everyone around them.
BASMAH is determined to brighten as many lives as it can.

Recognition

BASMAH is officially registered with the Bangladesh government as a foreign NGO, registration no: 3325. BASMAH has also recieved the Special Consultative Status from the United Nations ECOSOC.

OUR IMPACT IN 2022

for Rohingya refugees & communities in Bangladesh

Sheltering the Homeless

Basmah has built 150 homes to shelter families within the Refugee camps and people from the streets.

Medical Care

Basmah has provided free medical treatment including dental, and medication to 100,000 people.

Orphan Care

Basmah currently hosts 200 orphans full time shelter, and sustenance entirely

Learning Center

Basmah is currently educating more than 500 Rohingya children within the Refugee camps on a regular basis to help them recover.

Qurbani

BASMAH also provided Qurbani meat to 14,000 Rohingya and poor families (about 70,000 people)

Food For Hungry

Basmah has a combined total of 8,000 including hot meals and food packets.

Emergency Relief

Basmah responded to 3 disasters delivering emergency assistance to more than 40,000 people.

Education

Basmah has established facilities to educate over 900 students at no cost to them on a daily basis.

Empowering Women

Basmah has helped 80 women to reenter society capable of caring for their family and is training 45 women currently.

Ramadan Iftar

Basmah provided Iftar food boxes to 80,000 families for the month of Ramadan.

Clean Water

Basmah has built over 200 clean water wells from the ground which is a permanent source of safe water for the surrounding beneficiaries.

Winter Relief

Basmah has clothed and spread warmth to 30,000 families in the past winter by distributing necessary supplies inside the Refugee camps and outside.

Modern Skills Training

Basmah has established a new facility where we train youth with modern developmental skills to enter society as a highly functional adult.

Medical Care

07

BASMAH provides free medical treatment at our medical centers to prevent diseases and eliminate illnesses. From the diagnosis to prescription we provide services to cover all the necessities of our patients. BASMAH also aims to improve hygiene and sanitation improvement especially in the Refugee camps where living conditions are below standard.

10,500
Dental Patients Treated

In addition to covering all basic medical needs of the Rohingya Refugees we also provide Dental services in the Dental care center operated by our specialized staff. Dental care is a crucial service for the underprivileged and often overlooked, which is why we use top of the line equipment and ensure the best treatment possible.

Education

4 QUALITY EDUCATION

BASMAH is very dedicated to ensuring self-sustainability and improvement in the coming generation of the less fortunate. The first way to accomplish this is by education. We offer free education to children so that they can grow up to be functional members of society and slowly break out of the cycle of poverty with their own capabilities. BASMAH follows the standard curriculum and also participates in mental health education & awareness. Uniforms, bags, snacks, and all school material are provided by BASMAH for no cost.

80

Self sufficient
women graduated

One of the crises faced particularly by women, is when they lose their fathers or husbands and are suddenly responsible to take care of their children. Living in poverty, these women are not experienced enough to survive this dilemma on their own which is why BASMAH has multiple women empowerment centers where we train, educate, and assist women to start their own business and create their own income so they can be independent and care for their children. BASMAH also has employment programs for them after graduation.

Orphan Care

Many Rohingya children have lost their parents in the terrible genocide they escaped. They are innocent and they do not deserve this treatment. BASMAH has multiple orphan centers where we care for these children and provide them all the support the need for a healthy upbringing so they can move forward from their trauma and adapt to a normal life.

158,000
Total Beneficiaries

Hunger and malnutrition is rampant in Bangladesh and with the dense population residing in the Refugee camps there is always room to help with food provisions. BASMAH has distributed food boxes which cover the needs of families for weeks during Ramadan and Qurbani. BASMAH also provides fresh hot meals to underprivileged locals and the Rohingya Refugees with the goal of alleviating hunger.

150

Homes built for families

The Rohingya Refugee camps are in the hilly areas near the coast. They are subject to flash floods, and landslides, like other areas of Bangladesh which results in many tents and homes being lost. BASMAH aims to help the families and people who have no choice but to live on the streets under rags which is why we are building durable shelters in multiple areas based on need so there can be more people with a roof above their head.

Emergency Response

13 CLIMATE ACTION

Natural disasters and accidents occur. Bangladesh is an underdeveloped country so in these cases it is very difficult to prepare and respond. In 2022 the sylhet region in Bangladesh suffered from floods and there were also two major container fire incidents. Basmah was present for both of them. We immediately sent out an emergency response team who was prepared to distribute all sorts of relief aid that was necessary at the incidents.

50
Youths graduated with modern skills

BASMAH has a goal to empower the communities who are currently dependent on relief aid. We provide free training to the youth so they can rejoin society with skills and capabilities as a functional member and eventually change the lives of their surroundings. Through this project BASMAH intends to change the structure of many underprivileged communities.

Warmth in Winter

Within the Rohingya Refugee camps and for the poverty stricken in Bangladesh, winter is a deadly season. Living in makeshift tents and being homeless these people suffer the most as they also do not have appropriate clothing to survive the relentless weather. BASMAH distributed winter provisions within the camps and for the underserved locals who need it the most throughout the whole season of winter with the intent to make life easier for them.

200
Clean Water Wells built

Water is a necessity of life and it is a resource many cannot take for granted. BASMAH focuses on building clean water wells for surrounding communities where there is a lack of access to safe drinkable water so they can avoid contaminated sources like ponds from which illnesses and diseases spread easily. We build a permanent structure that will remain as a source of water for many years to come.

Basmah works closely in the Rohingya Refugee camps throughout the whole year and we are always working hard to keep them happy. One of the happiest days for us in the year is Eid. It is very heartbreaking that the Rohingya Refugees can barely celebrate this festival due to the terrible situation they are facing. However, Basmah is there for them and we want to change this. We want to restore their lives to normal and take away any feelings of deprivation for them which is why every Eid we give out gifts to the Rohingya Refugees in the camps so they can feel special. We give children toys and clothes and other beneficial presents.
